25X1 MEMORANDUM FOR: [ ]

Bill:

25X1 I expect [ ] is right that these papers on requests  
for CIA speakers should have been returned earlier, although I believe the  
25X1 procedure outlined in the attached notice is in effect and seems to be operating  
very well. In addition to the notice, several actions were promised the  
Executive Director-Comptroller. [ ] was to prepare texts and outlines  
of speeches before non-Government groups for coordination and approval in  
advance. Also, we were to look into presentations by recruiters and mem-  
bers of the 100 Universities Program to see if action is needed in these areas.  
I believe you have the package of paper which Emmett Echols gave us on this  
subject.

Existing commitments for presentations outside the  
Intelligence Community were to be reviewed and submitted for current deci-  
sion on their continuation. If I recall, [ ] is to present a review of Ameri- 25X1  
can University's Seminar and Workshop in Intelligence Analysis about ~~1 April~~, 1 March  
but there is no indication that other reviews are planned.

Will you please follow up on these actions? OTR has  
suggested changing a couple of words in the proposed notice which, as I recall,  
was redrafted at the request of [ ] who wanted the provision 25X1  
for outlines for speeches removed in favor of full text.
